**PRESS RELEASE
SAVE OUR SHORELINE**

**The Save Our Shoreline Board of Directors applauds
Report of the Great Lakes Conservation Task Force
issued 01-16-02.**

Bay City, Michigan—January 17, 2002--The Board of Directors of Save Our Shoreline is pleased with the report "Senate Great Lakes Conservation Task Force 2002 Final Report," of the Great Lakes Conservation Task Force, a committee of the Michigan State Senate, issued Wednesday, January 16, 2002. The report is available at: www.senate.state.mi.us/gop/greatlakesreport/index.html. The Task Force conducted eight public hearings around the state on the topic of the Great Lakes, and apparently was impressed with the showing of Save Our Shoreline at its Saginaw meeting. The newly formed organization was the subject of the Report's "dedication," and was mentioned at two other points in the Report.

Most importantly, as part of the Report's recommendations, the Task Force suggests that "[t]he needs of beachfront owners must be given reasonable and consistent consideration when habitat protection laws are enforced."

Save Our Shoreline, with approximately 500 members, was formed in August of 2001 in response to governmental interference with beachfront property owners in maintaining their beachfront property. For more information, please contact Ernie Krygier, President, at (989) 793-3711, or visit us on the web at www.saveourshoreline.org.
